In California, coverage is underwritten by
Continental American Life Insurance Company.

BenExtend[®] for Diseases Insurance (Policy Series 81000)

Here for you when you need us the most

We'd like to think science can stop contagious diseases in their tracks, but outbreaks such as the flu, SARS and COVID-19 have shown that's not always the case. Fortunately, Aflac has learned to expect the unexpected.

We've developed a plan that's among the first of its kind: BenExtend for Diseases, which pays benefits if you are diagnosed, hospitalized or treated for a covered illness.

We know many Americans are concerned about how COVID-19 and similar diseases might affect them, from health to their finances and jobs. Aflac is here to help by paying expenses health insurance doesn't cover.

If this coverage will replace any existing individual policy, please be aware that it may be in your best interest to maintain your individual guaranteed-renewable policy. Notice to Consumer: The coverages provided by Continental American Insurance Company (CAIC) represent supplemental benefits only. They do not constitute comprehensive health insurance coverage and do not satisfy the requirement of minimum essential coverage under the Affordable Care Act. CAIC coverage is not intended to replace or be issued in lieu of major medical coverage. It is designed to supplement a major medical program. Continental American Insurance Company (CAIC), a proud member of the Aflac family of insurers, is a wholly owned subsidiary of Aflac Incorporated and underwrites group coverage. CAIC is not licensed to solicit business in New York, Guam, Puerto Rico or the Virgin Islands.
